Notes to the Financial Information

These notes form an integral part of the financial information.

1. General

BHG Retail REIT (the "REIT") is a Singapore-domiciled unit trust constituted pursuant to the trust deed dated 18 November 2015 (as amended by a first supplemental deed dated 26 March 2018, a second supplemental deed dated 20 April 2018 and a third supplemental deed dated 14 April 2020) (collectively the "Trust Deed") between BHG Retail Trust Management Pte. Ltd. (the "Manager") and DBS Trustee Limited (the "Trustee"). The Trust Deed is governed by the laws of the Republic of Singapore. The Trustee is under a duty to take into custody and hold the assets of the REIT held by it or through its subsidiaries (the "Group") in trust for the holders of units ("Units") in the REIT.

The REIT was formally admitted to the Official List of the Singapore Exchange Securities Trading Limited (the "SGX-ST") on 11 December 2015 (the "Listing Date").

The principal activities of the REIT are those relating to investment in a diversified portfolio of income-producing properties located primarily in the People's Republic of China ("China") and used primarily for retail purposes.

The principal activities of the subsidiaries are those of investment holding of properties located in China and used for retail purposes.

The consolidated financial information ("Financial Information") relate to the Trust and its subsidiaries (the "Group").

The Group has entered into several service agreements in relation to the management of the REIT and its property operations. The main fee structures for these services are as follows:

(i) Trustee's fees

Pursuant to Clause 15.5 of the Trust Deed, the Trustee's fees shall not exceed 0.1% per annum of the value of deposited property, subject to a minimum of S\$10,000 per month, excluding out-of-pocket expenses and Goods and Services Tax.

(ii) Manager's management fees

The Manager is entitled under Clauses 15.1 of the Trust Deed to the following management fees:

- a base fee of 10% per annum of the annual distributable income; and
- a performance fee of 25% per annum of the difference in distribution per unit ("DPU") in a financial year with the DPU in the preceding financial year (calculated before accounting for the performance fee but after accounting for the base fee in each financial year) multiplied by the weighted average number of Units in issue for such financial year.

The Manager may elect to receive the management fees in cash or Units or a combination of cash and/or Units (as it may in its sole discretion determine).

(iii) Property management fees

Under the property management agreement in respect of each property, the property manager ("Property Manager") will provide lease management services, property management services and marketing co-ordination services in relation to the property. The Property Manager is entitled to the following fees:

- 2% per annum of the gross revenue of the property;
- 2.5% per annum of the net property income of the property; and
- a one-time lease-up commission of 2 months of fixed rent for securing of new tenants for a tenancy of at least three years, commencing for new tenancies entered into from 1 January 2018.

The property management fees are payable to the Property Manager in the form of cash and/or Units.

2. Basis of preparation

The financial information have been prepared in accordance with the recommendations of the Statement of Recommended Accounting Practice ("RAP") 7 Reporting Framework for Unit Trusts issued by the Institute of Singapore Chartered Accountants, the applicable requirements of the Code on Collective Investment Schemes (the "CIS Code") issued by the Monetary Authority of Singapore ("MAS") and the provisions of the Trust Deed, and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2021. RAP 7 requires that accounting policies adopted should generally comply with the principles relating to recognition and measurement of the Singapore Financial Reporting Standards ("SFRS").

The financial information does not contain all of the information required for full annual financial statements.

The financial information has been prepared on a historical cost basis, except for the investment properties and financial derivatives which are stated at their fair values.

The financial information is presented in Singapore dollars which is the Trust's functional currency. All financial information presented in Singapore dollars has been rounded to the nearest thousand, unless otherwise stated.

The preparation of the financial information in conformity with RAP 7 requires the Manager to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this financial information, significant judgements made by the Manager in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2021.

The accounting policies applied by the Group in this Financial Information are the same as those applied by the Group in its financial statements as at and for the year ended 31 December 2021. The adoption of these new and revised standards did not have a material impact on the Group's Financial Information.

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 January 2022 and earlier application is permitted; however, the Group has not early adopted the new or amended standards and interpretations in preparing this financial information.

Investment properties comprise retail properties that are held mainly for use by tenants under operating leases (see Portfolio Statement for details).

Measurement of fair value

Investment properties are stated at fair value based on valuation as at 31 December 2022 performed by independent professional valuers having appropriate recognised professional qualifications and recent experience in the location and category of property being valued. In determining the fair value, the valuers have used valuation methods which involve certain estimates. The Manager reviews the key valuation parameters and underlying data including terminal growth rates, term yield and reversionary rates and discount rates adopted by the valuers and is of the view that the valuation methods and estimates are reflective of the current market conditions.

The fair values are based on open market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction wherein the parties had each acted knowledgeably and without compulsion.

The valuers have considered valuation techniques including the discounted cash flow method, and capitalisation approach. The discounted cash flow method involves the estimation and projection of an income stream over a period and discounting the income stream with an internal rate of return to arrive at the market value. The capitalisation approach capitalises an income stream into a present value using single-year capitalisation rates.

The valuation technique(s) considered by valuers for each property is in line with market practices generally adopted in the jurisdiction in which the property is located.

Level 3 fair values

The following table shows the significant unobservable inputs used in the valuation models:

Valuation methods Discounted cash flows approach	Significant unobservable inputs Discount rates from 6.9% to 8.0% (2021: 7.0% to 8.0%) per annum	Inter-relationship between key unobservable inputs and fair value measurement The fair value increases as discount rate decreases.
	Terminal growth rates 3.0% (2021: 3.0%)	The fair value increases as terminal growth rate increases.
Income capitalisation approach	Term yield from 5.0% to 6.6% (2021: 4.5% to 5.5%) Reversionary rates from 5.5% to 7.1% (2021: 5.0% to 6.0%)	The fair value increases as term yield and reversionary rate decrease.

Interest rate swaps of the Group and the REIT with a total notional amount of S\$104.0 million (2021: S\$145.2 million) and S\$104.0 million (2021: S\$145.2 million) respectively, to provide fixed rate funding for average terms of 3 years (2021: 3 years) at an average interest rate of 2.85% (2021: 1.84%) per annum. These interest rate swaps are designated as hedging instruments in cash flow hedges. The fair value of financial derivatives represented 0.24% (2021: 0.15%) of the net assets of the Group as at 31 December 2022.

- including performance component of Manager's management fees	0.65	0.56	
Ratio of expenses to net asset value (2)	5.41	4.89	
Portfolio turnover rate (3)			

Notes:

- (1) The ratio is computed in accordance with the guidelines of the Investment Management Association of Singapore. The expenses used in the computation relate to expenses at the Group level, excluding property related expenses and borrowing costs.
- The ratio is computed based on total operating expenses, including all fees and charges paid to the Manager and related parties for the financial year (2022: S\$31,567,000 and 2021: S\$32,114,000) and as a percentage of net asset value as at the financial year end.
- (3) The ratio is computed based on the lesser of purchases or sales of underlying investment properties of the Group expressed as a percentage of weighted average net asset value. There was no purchase or sale of the investment properties in 2022 and 2021.

13. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial year.

14. Operating segments

The Group has 6 (2021: 6) reportable segments, as described below, which are the Group's investment properties. The investment properties are managed separately because they require different operating and marketing strategies. For each of the investment properties, the Chief Operating Decision–Makers ("CODMs") review internal management reports on a monthly basis.

All of the Group's reportable segments are investment properties located in China used primarily for retail purposes. The reporting segments are as follows:

- Beijing Hualian Wanmao Shopping Mall Management Co., Ltd. ("Beijing Wanliu")
- Chengdu Hairong Xingda Real Property Co., Ltd. ("Chengdu Konggang")
- Hefei Hualian Rui An Shopping Mall Commercial Operation Co., Ltd. ("Hefei Mengchenglu")
- Hefei Hualian Ruicheng Shopping Plaza Commercial Operation Ltd. ("Hefei Changjiangxilu")
- Qinghai Xinglian Real Property Co., Ltd. ("Xining Huayuan")
- Dalian Hualian Commercial Facilities Operation Co., Ltd. ("Dalian Jinsanjiao")

Segment revenue comprises mainly income generated from its tenants. Segment net property income represents the income earned by each segment after allocating property operating expenses. This is the measure reported to the CODMs for the purpose of assessment of segment performance. In addition, the CODMs monitor the non–financial assets as well as financial assets attributable to each segment when assessing segment performance.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly the REIT's financial assets and liabilities and its expenses. Segment capital expenditure is the total cost incurred during the year to improve segment assets that are expected to be used for more than one year.

Information regarding the Group's reportable segments is presented in the tables in the following pages.

For the purpose of monitoring segment performance, the Group's CODMs monitor the non-financial assets as well as financial assets attributable to each segment.

Footnotes:

- (1) Decrease in net property income mainly due to rental rebates of approximately 0.5 month given to tenants in 2H 2022 and FY 2022 while no rental rebates were given in 2H 2021 and FY 2021.
- (2) Other income mainly comprised fine and penalties from tenants, government grant and miscellaneous income.
- (3) Manager's base management fee is calculated as 10.0% per annum of the Distributable Income of the Group. Manager's performance fee is calculated as 25.0% of the difference in DPU in a financial year with the DPU in the preceding financial year (calculated before accounting for the performance fee but after accounting for the base fee in each financial year) multiplied by the weighted average number of Units in issue for such financial year.
- (4) Increase in realised foreign exchange loss mainly due to settlement of a previous USD denominated loans during the loan refinancing in mid-March 2022.
- (5) Increase in finance costs mainly due to higher interest expenses.
- (6) Decrease in income tax expenses mainly due to the lower corporate income tax paid and payable by the malls associated with lower profit before tax as compared to the last financial period and deferred tax expenses arose from the temporary differences in investment properties fair value.

Footnotes:

- (1) The carrying amount of investment properties has decreased due mainly to the weakening of RMB against SGD as compared to last financial year. Notwithstanding a gradual COVID-19 recovery in China, the effects of the pandemic remains fluid and will continue to evolve in the near-term.
 - Fair value changes on investment properties in terms of RMB for FY 2022 range from 0% to 0.6% as compared to FY 2021. This is largely due to potential occupancy changes and better economic performance.
- (2) These relate to the fair value of the interest rate swaps entered into by the REIT, which are designated to hedge the variable rate borrowings.
- (3) Loans and borrowings are measured at amortised cost. The Group and the REIT have completed the refinancing of the existing onshore and offshore facilities. Movement in the current liabilities and noncurrent liabilities are classified and/or reclassified in accordance with respective maturity dates.
- (4) The REIT arranged more long-term interest-bearing loans from its subsidiaries as compared to the last financial year. These loans are mainly used for the REIT's distribution payment and interest expenses.
- (5) Decrease in short term security deposits was mainly due to the lower occupancy rate.

2. Review of the performance of the Group

Gross revenue in 2H 2022 and FY 2022 were S\$5.5 million (-15.0%) and S\$4.2 million (-6.0%) lower than in 2H 2021 and FY 2021 respectively. This was mainly due to rental rebates of approximately 0.5 month given to tenants in 2H 2022 and FY 2022 while no rental rebates were given in 2H 2021 and FY 2021 respectively. In addition, the portfolio occupancy rate was 95.2% as at 31 December 2022, lower than 97.0% as at 31 December 2021. Property operating expenses in 2H 2022 and FY 2022 were S\$1.0 million (-6.6%) and S\$0.1 million (-0.5%) lower than in 2H 2021 and FY 2021 respectively. This was mainly due to the lower property tax and property management fees which both are associated with the decline in gross rental income. As such, the net property income in 2H 2022 and FY 2022 were S\$4.5 million (-21.0%) and S\$4.1 million (-9.8%) lower than in 2H 2021 and FY 2021 respectively.

Finance costs in 2H 2022 and FY 2022 were S\$1.1 million (15.0%) and S\$1.6 million (11.5%) higher than 2H 2021 and FY 2021 respectively. This was mainly due to the higher interest expenses.

Amount to be distributed to Unitholders in 2H 2022 and FY 2022 were S\$3.2 million (-60.6%) and S\$5.1 million (-46.1%) lower than 2H 2021 and FY 2021. Approximately S\$0.7 million (FY 2021: S\$1.2 million) of the income available for distribution for FY 2022 had been retained for the purpose of operating expenses and working capital requirements of the REIT.

7. Commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months

China's gross domestic product¹ ("GDP") for 2022 increased 3.0% year-on-year to RMB 212.0 trillion, beating market consensus of 1.8% expansion². Disposable income per capita of urban residents grew 4.1% year-on-year in 2022 while retail sales of consumer goods fell 0.2% year-on-year¹.

The International Monetary Fund (IMF) raised its China's GDP outlook for 2023, revising it from 4.4% in October 2022 to 5.2% in January 2023³, supported by the reopening of the economy following the lifting of its COVID-19 restrictions.

China's shift from zero-covid to reopening since early December 2022 is seen as hugely beneficial to real estate, with the retail sector set to be one of the main beneficiaries. Retailer expansion is expected to pick up from 2Q 2023, underpinned by rising demand for prime retail space and bottoming of rents⁴.
